WATWATER

TURN TAP
WATER INTO PROFITS

Premium Sparkling Water. Simplified.

Sparkling water-based beverages are among today's fastest-growing beverage categories

The WatWater system makes serving premium chilled sparkling water simple, profitable, and sustainable

Eliminate the cost, hassle, storage, and waste associated with bottled sparkling water

WatWater transforms ordinary tap water into premium sparkling water on demand for a **fraction of a penny per ounce,** allowing operators to increase profitability while delivering an exceptional customer experience

ebs enhanced beverage solutions

WAT WATER

STOP SHIPPING
START SERVING IT
